## CONSTRUCTION ALERT

### 61<sup>st</sup> Ave NE Re-Channelization Project

The City of Kenmore will be making some changes to the channelization on 61<sup>st</sup> Ave NE between the 18100 Block and 19400 Block.

This work will include the removal of existing painted pavement markings and the installation of new painted markings. The purpose of this work is to improve safety for all modes of transportation; pedestrian, bicycle and vehicular traffic.

This work is currently scheduled to be performed during night time hours, between the hours of 7PM to 5AM, to avoid major commuter delays and to reduce the risks to public and workers' safety. The entire project should be completed within two nights and is currently scheduled to begin on Sunday, June 15<sup>th</sup> (weather dependent).

Crews will make every effort to minimize noise throughout the project during the night. The hydroblaster that will be used to remove pavement markings is loud; however it is a moving operation and should not cause an inconvenience for long periods of time.

Thank you for your patience and we apologize for any inconvenience this may cause.

#### **Public Works Department**

Please check the City's website for project updates or weather delays.
