City of Kenmore
2019-2021 State Legislative Agenda

Propel Lakepointe Development
Lakepointe is the last remaining undeveloped property of its size on Lake Washington - a 47-acre site poised to become a dynamic mixed-used transit-oriented development with housing, office and retail space, hotel, and nearly a mile of public shoreline public access. A longstanding barrier to redeveloping the Lakepointe property stems from site conditions that are the result of a State transportation project. When Interstate-5 was built in Seattle, WSDOT used the Lakepointe site as a landfill for construction and demolition debris. As a result, deep foundation systems consisting of thousands of pilings will be required for the property to be developed, adding substantial costs of potentially over $100 million to any redevelopment project.

To alleviate these extraordinary costs related to the site’s prior use by the State, the City of Kenmore requests that the State provide a construction sales tax credit for public improvements on the site, or other economic development incentives necessary to allow this property to overcome this hurdle and be developed. Without the State’s partnership, the steep infrastructure and other project costs will continue to cause this vital waterfront site to languish and not redevelop. Even with the proposed incentives, the redevelopment of this site has the potential to offer a significant financial return on investment at both the state and local levels.

68th Avenue NE Pedestrian & Bicycle Safety
68th Avenue NE is an existing collector arterial roadway with mostly one travel lane in each direction and asphalt shoulders. The posted speed is 35 mph. This safety project extends from NE 182nd Street to 61st Place NE and consists of new sidewalk on one side of the roadway with retaining walls as needed, buffered bicycle lanes in each direction, new stormwater infrastructure, and utility relocation as needed. The citizens of Kenmore approved a bond measure to provide $5.1 million toward this project. The City is seeking $450,000 from the 2019-21 State Transportation Budget to complete the project.

Washington Wildlife & Recreation Program (WWRP)
The City of Kenmore supports ongoing funding for the WWRP grant program. If WWRP is funded at the recommended level, the City could receive the following funding:
  - Squire’s Landing Waterfront and Natural Area Access - $1.7 million
  - Log Boom Park Waterfront Access and Viewing - $665,916

Capital Budget Request
Twin Springs Park, a 25-acre tract of land in northeast Kenmore, was recently transferred to the City of Kenmore from King County as part of mitigation for the Brightwater regional wastewater project. The land consists mostly of wetland and steep forested land as well as about two acres of flat useable land for recreation. The City of Kenmore requests $150,000 to perform minimal improvements in order to get the park open to the public. Work will include parking improvements and also drainage improvements to make the field area suitable for the public. These improvements will allow the public to picnic and throw a frisbee while at the same time enjoying the park’s beautiful natural features and open space.

Reconnecting Kenmore’s Downtown to Lake Washington
Regional decisions regarding the State’s transportation system, including imposing tolls on SR 520, and the failure of the state system to handle daily commuter traffic, has resulted in more drivers opting to travel on State Route 522 through Kenmore. Despite recent improvements to State Route 522 to increase transit and vehicle capacity and improve pedestrian safety, congestion on State Route 522 continues to worsen. State Route 522 divides Kenmore’s downtown from its waterfront and the City is seeking a partnership with the State to reconnect the city’s downtown with the Lake Washington waterfront. The City is grateful for $500,000 from the State to complete a study that will determine the best location, design concept and cost for such a crossing. The City hopes to have results from the study by early 2020.
City of Kenmore
2019 Policy Statements

This document is an internal document designed to provide guidance to city staff and the city’s lobbyist. The policy statements in this document allow the city to quickly take positions on legislation. It is not an inclusive list of all policy positions that the city may take throughout a session, and the following items are not listed in order of priority.

Local Control on Asphalt Plant Regulations
The City of Kenmore supports efforts to ensure that the asphalt plant operates in a manner that is mindful of the surrounding urban neighborhoods and reduces the impact of asphalt production odor on Kenmore residents and business owners.

Affordable Housing
Kenmore residents are experiencing the squeeze of increased housing prices and fewer affordable housing options. The City of Kenmore supports legislation that provides tools and funding options that promote affordable housing, including investment in the Housing Trust Fund. The City also requests that the Legislature reform the condominium liability act to spur development of middle income, starter, senior and high-density housing units.

Support for WWRP & ALEA Grant Programs
The city of Kenmore supports fully funding the Washington Wildlife Recreation Program (WWRP) and the Aquatic Lands Enhancement Account (ALEA). Many city parks have benefitted from funding through these programs.

Product Stewardship
The city of Kenmore supports statewide product stewardship programs for products that are harmful to the environment such as electronic waste, mercury-containing florescent lights, and prescription drugs. The City will closely monitor the implementation of recently passed legislation to establish a statewide prescription drug takeback program to ensure there is no lapse in coverage as the King County program is phased out. The City supports legislation to establish a stewardship program for paint.

Prevent Human Trafficking
The city of Kenmore recognizes that human trafficking is a problem in all communities, and supports legislation that provides tools and solutions to prevent and intervene in human trafficking.

Local Infrastructure Funding
The city of Kenmore joins AWC in supporting the State’s ongoing and increased investment in infrastructure funding programs such as the Public Works Assistance Account.

Small Cell Infrastructure
Small cell technology requires more devises that each have a smaller distance of radio coverage, the equipment is typically smaller, and they are frequently installed on existing street furniture in the public right of way. There is a push to standardize the permitting process of small cell technology across WA and would require local governments to provide access to public facilities for use as small cell technology sites. The City opposes legislation that removes local control in the siting and regulation of small cell network facilities and supports legislation that provides for grandfathering of existing wireless communication facilities ordinances.

Funding for Indigent Defense
Indigent defense is a constitutional right that should be funded by the State. However, WA State only contributes 4% of the total amount spent for trail court indigent defense. The City supports state funding for indigent defense that is standardized and non-competitive to ensure more equitable funding.

Mobile Home
The City supports legislation to ensure individuals considering purchasing a mobile home are informed about laws and regulations limiting the transport of mobile homes.
Passenger Only Ferry
The City supports efforts to explore a passenger only ferry service from Kenmore to downtown Seattle.

Saint Edwards Ballfields
The City continues to work with the WA State Parks Commission to ensure the current ballfields at Saint Edwards State Park are renovated for public use and enjoyment.
