

KENMORE QUARTERLY

OFFICIAL NEWSLETTER OF THE CITY OF KENMORE, WA | WINTER 2020

Kenmore Wins Prestigious VISION 2040 Award

Beginning in 2003, the City of Kenmore purchased nearly 10 acres of downtown property and worked to create a mixed-use, walkable center consistent with the City's visioning process and Downtown Plan. Now, the site features several hundred housing units, medical and dental facilities, a town square, commercial buildings, restaurants, and retail. The new downtown is now home to Kenmore Camera, the Seaplane Kitchen and Bar, the Flyway, and the City's very popular Hangar community building, a year-round public gathering place.

Because of these efforts to bring a hub of community to the downtown core, the City of Kenmore received a 2019 VISION 2040 Award from the Puget Sound Regional Council. The award recognizes innovative projects and programs that help ensure a sustainable future as the region grows.

Story continues on pg. 3

Construction on West Sammamish River Bridge and Two Walkways & Waterways Projects to Start in 2020

Three projects along the 68th Avenue NE/Juanita Drive NE corridor are scheduled to start in 2020: 1) Replacement of the West Sammamish River Bridge, 2) 68th Avenue NE Pedestrian and Bicycle Safety Improvements, and 3) Juanita Drive NE Pedestrian and Bicycle Safety Improvements.

The West Sammamish River Bridge replacement (southbound bridge) is expected to commence in March 2020 and the work along 68th Avenue NE and Juanita Drive NE will also begin in early 2020.

Once construction is underway for these three projects, there will be significant traffic impacts. Drivers who use these roads and cross the bridge regularly may wish to explore alternate routes, adjust schedules, and/or consider alternative transportation options.

Story continues on pg. 7

MEET YOUR CITY COUNCIL

Mayor **David Baker** Deputy Mayor **Nigel Herbig** Councilmember **Milton Curtis** Councilmember **Corina Pfeil** Councilmember **Joe Marshall** Councilmember **Melanie O'Cain** Councilmember **Debra Srebnik**

City Council regular meetings are at 7:00 p.m. on the 2nd, 3rd, and 4th Mondays of each month, unless otherwise posted. For more information, visit www.kenmorewa.gov/council.

Leading the Kenmore Community: Our Outgoing and Incoming Councilmembers

This January, there were some changes in leadership as two of Kenmore's councilmembers ended their terms and two new councilmembers were sworn in. The transition provides an important opportunity to reflect on the accomplishments of the outgoing councilmembers and welcome the incoming councilmembers.

Councilmember Brent Smith served from 2012-2019. Brent holds a BA in Economics from the University of Washington. Brent has over 30 years of experience in banking and in real estate. He has been self-employed for over 20 years and currently owns Brent Smith Homes and Highland Appraisal Group, Inc. As a councilmember, Brent has been particularly proud of development of the New Town Square and Hangar, especially coming up with the Hangar name. He also advocated for a super-majority vote for development agreements which was ultimately approved and for significant PSE system upgrades to improve power reliability. Other accomplishments include park acquisitions and considerable park improvements throughout Kenmore, waterfront improvement height limits to retain Kenmore's long term view assets, Transit-Oriented District and Regional Business zoning, and creativity

in our brewery district zoning.

Councilmember Stacey Denuski served from 2014-2019. Stacey has a degree in Electrical Engineering from the University of Arizona and is a flight test engineer for the Boeing Company. She has been an active member of the PTA, has led playground builds at Rhododendron and Northshore Summit Park, and was a co-founder of Kenmore's annual Play Day. As a councilmember, Stacey is proud of the New Town Square and Hangar, as well as the creation of Northshore Summit Park and the Jack Crawford Skate Court. She was involved in the Imagine Kenmore initiative that led to voter approval of the Walkways & Waterways Bond Measure and the Twedt waterfront property acquisition which added to Squire's Landing Park and is now the home of various waterfront recreation programs, including Kenmore Waterfront Activity Center. Other accomplishments include the YMCA Summer Lunch Program and the establishment of the Northshore Emergency Management Coalition.

Kenmore welcomes new Councilmembers Melanie O'Cain and Corina Pfeil who began their service in January.

Councilmember Melanie O'Cain holds a BA from the University of Washington. She has worked for the Port of Seattle for 19 years and is currently an Accounting Records and Administration Manager. She grew up in Kenmore and returned to raise her children in her hometown.

Councilmember Corina Pfeil is a Behavioral & Social Health Services Undergrad, and Pre-Public Health at Lake Washington Institute of Technology. Corina has nearly 18 years prior service in the dental/medical field providing patient quality coordinated care and team management. Corina is a well-known community leader and legislative advocate who has served on several area committees and as a board member/executive board member of several local non-profit organizations. She has lived in Kenmore for over 30 years. She raised her family in Kenmore and her children attended Northshore public schools.

Councilmembers Smith and Denuski chose not to run for re-election. Current Councilmembers David Baker and Milton Curtis both ran for re-election and were sworn in for their 5th and 4th terms on the Council, respectively.

For more information, visit www.kenmorewa.gov/council.

Kenmore Wins Prestigious VISION 2040 Award

Story continued from pg. 1

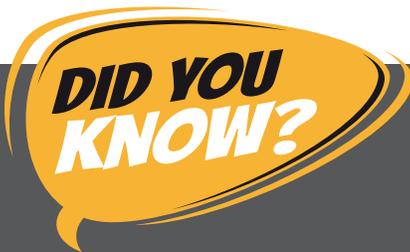

VISION 2040 is the region's growth management, economic, and transportation strategy, designed to meet the needs of the 5 million people expected to be living in the region in 2040. It is an integrated, long-range vision for the future that lays out a strategy for maintaining a healthy region by promoting the wellbeing of people and communities, economic vitality, and a healthy environment.

The award was presented to the Kenmore City Council at their meeting on September 9, 2019.

City Earns Another Clean Audit

For the 18th year in a row, the City has received a clean audit opinion from the Washington State Auditor's Office. The Financial Statement and Federal Single Audit covered the City's 2018 Financial Statements and Federal grant awards and there were no findings or management issues noted. Accountability Audit procedures were also performed to determine whether the City complied with applicable laws and regulations and our own policies and procedures.

Finance Director Joanne Gregory and city staff earned high praise from Mayor David Baker for their collective efforts, integrity, and commitment that results in clean audits. In addition, the City is awarded state and federal grants for construction projects. Time and again, the City is recognized for outstanding work managing, documenting, and reporting these grants. Transparency and responsibility are values not only reflected in the clean audits, but also in the City holding the highest rating from S&P Global Ratings, AAA on its 2016 bonds.

There's a Prescription Drug Drop Box at City Hall

Do you have unwanted or expired prescription drugs? Don't flush them or throw them away! Doing so can damage the environment. And please don't leave them unsecured in your household where others, especially children, could access them.

The Kenmore Police Department hosts a secure and discrete service that safely disposes of your unwanted prescription drugs. Located in the lobby of City Hall, the drop box is able to accept any medications in their original container or a sealed bag.

The following items are NOT ACCEPTED: Fluids, herbal remedies, vitamins, supplements, cosmetics, other personal care products, medical devices, inhalers, mercury-containing thermometers, sharps, illicit drugs, and pet pesticide products.

Ostrom's Drug Store (6414 NE Bothell Way) also operates a prescription drug drop box in Kenmore. Check Ostrom's website for their current hours.

Shape Your Future: Census 2020

Census Day is April 1! The City of Kenmore encourages all residents to complete this once-per-decade confidential national survey. Census results offer a snapshot of the United States. They help guide federal funding (including to Kenmore), help determine state and federal legislative representation, and provide valuable information to benefit communities and businesses.

Your data makes a difference!

According to www.census.gov, data from the survey is used for all kinds of city planning and improvement, including roads, schools, and emergency services. Each person counted each year represents more than \$2,000 in government funding to provide crucial services such as housing, highways, Medicaid, student loans and grants, school lunch programs, mental health treatment, Head Start, and many others. If you've lived in Kenmore for 10 years, you've already contributed more than \$20k to services.

Locally and nationally, businesses use census data to determine where to open new places to shop. Your participation also contributes to the larger community; census data determines how many representatives each state gets in the U.S. Congress and how many representatives in state legislatures.

Look for census information coming soon and help shape the future of our Kenmore community!

Property Tax Exemptions: Changes You Need to Know

Tax relief is provided for people who live on fixed income, but did you know only 1 in 100 of those eligible are currently enrolled in the relief program? More than 26,000 qualified seniors, veterans, and disabled persons have yet to register for the exemption.

The process of applying is fairly simple and we encourage you or those you know to take advantage of this meaningful tax relief. State law provides two tax benefit programs for this population: property tax exemptions and property tax deferrals.

The Legislature has made major changes that will take effect for taxes collected next year, 2020. The income limit is now indexed to 65 percent of the median household income in King County. The new limit is \$58,423 rather than set at a fixed amount. It's anticipated that this will allow more people to be eligible for these programs. For property in King County, you can apply for taxes payable in 2020 as early as January, 2020.

More information is available at www.kingcounty.gov/depts/assessor/Tax-Relief.aspx.

Update: Kenmore's Financial Sustainability

Due to state-imposed limits on property tax growth, flat growth in other revenues, unfunded state and federal mandates, and other factors, the City's operating revenues are not keeping pace with the cost of doing business.

As a result, the City of Kenmore faces an upcoming structural deficit in its operating budget (General Fund and Street Fund). Unlike one-year deficits, which can be fixed by cutting costs or growing revenue immediately, structural deficits grow over time. While the City has been adopting balanced budgets, operating expenditures could start exceeding operating revenues as soon as 2021. Funding sources and uses for one-time capital projects are separate from and do not directly affect the operating budgets.

Last fall, the City Council approved a process for creating a Financial Sustainability Plan and a charter for a task force of community members to assist in this work. The City commissioned a community survey and an independent financial assessment of the City's long-range financial forecasts. **Information is available at www.kenmorewa.gov/financeadministration.**

The City Financial Sustainability Plan Task Force is meeting now to review the issue, determine the problem, and advise the City Manager. Financial experts Management Partners are also preparing a report on the City's options for addressing this issue. The City Council is expected to review options and recommendations in May or June of this year.

This discussion is about your City budget and community. Please see the website for opportunities to participate, learn more and share your thoughts. You can also email us your comments and hopes for Kenmore's financial future at fsp@kenmorewa.gov. We welcome your input!

How Initiative 976 Impacts Kenmore

Initiative 976, approved by the State's voters on November 5 of last year, will cause the City of Kenmore to lose about \$360,000 per year in street maintenance funding, or about 22% of the City's Street Operating Fund. While the initiative passed statewide, 56% of Kenmore voters voted No on I-976.

The \$360,000 in revenue for the City comes from a \$20 vehicle license imposed by the City back in 2013. This license fee is a flat fee and is not based on the value of the vehicle. Revenue from this fee helps pay for street maintenance and pavement preservation, including crack seals and slurry seals.

In early December, the Washington State Supreme Court agreed with a King County Superior Court judge's decision to temporarily block Initiative 976 from going into effect. The Supreme Court ruled that the temporary block will be in effect while litigation challenging the initiative's constitutionality plays out.

If Initiative 976 is ultimately upheld, the Kenmore City Council will need to figure out how to deal with a 22% loss to its street maintenance budget, even as costs of maintaining city streets continue to rise. This discussion will be in the context of the Financial Sustainability Plan Process, as described on the same page as this article.

Questions? Contact City Manager Rob Karlinsey at rkarlinsey@kenmorewa.gov or Administration and Finance Director Joanne Gregory at jgregory@kenmorewa.gov.

Walkways and Waterways Open House: Get Ready for New Trails, Viewing Points, and More

Log Boom Park and Squires Landing Park are getting ready for a change. An update on these projects will be outlined at an open house, and you're invited!

OPEN HOUSE

February 26, 6:30 - 8:30 p.m.
Kenmore City Hall
Presentation at 7:00 p.m.

Information is also available on the City's website at kenmorewa.gov/walkwaysandwaterways.

Learn about Log Boom Park's improved public access to Lake Washington, including beach expansion, new trails and viewpoints, picnic shelter, boat rental building, and native habitat restoration. The Squires Landing Park project will improve public access to the Sammamish River with 4 acres of native habitat restoration and 1.5 acres of new infrastructure, including bridge and viewing points, plaza, picnic shelter, boardwalks, docks, parking lot, and restroom.

Join us at the open house to see the proposed plans and progress on project design since the March 2018 open house. Both projects are progressing through the regulatory permitting process. The project plans and designs have been refined based on studies, fieldwork, constructability review and in response to comments during permit review.

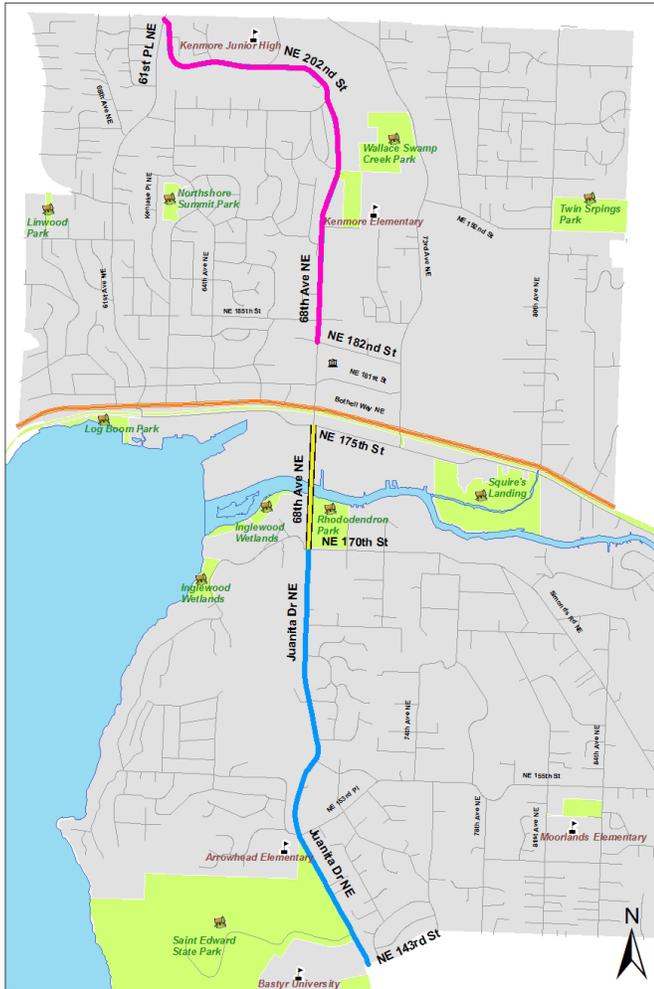

SR 522 Bus Rapid Transit Planning Continues

Sound Transit's work to connect communities along SR 522 to the Link Light Rail Station planned for NE 145th Street and Interstate 5 continues to move forward. Kenmore staff is working closely with Sound Transit and the Cities of Shoreline, Lake Forest Park, Bothell and Woodinville as planning for Bus Rapid Transit (BRT) service continues. This project is part of the ST3 measure passed by voters several years ago, and service is scheduled to begin in 2024. Mayor David Baker is a member of the Sound Transit Board.

Kenmore will have at least two station pairs (stops on westbound and eastbound sides of the street) at 68th Ave NE and near 73rd Ave NE/Park and Ride. A provisional station pair at 61st Ave NE and 80th Ave NE is being evaluated as well. Parking structures are also planned for Kenmore, Lake Forest Park and Bothell, and those plans are starting to take shape. Kenmore's parking structure is planned for part of the current Metro Park and Ride property.

Sound Transit, King County, City of Kenmore and owners of private property between the Metro Park and Ride property and 73rd Ave NE are looking at potential opportunities for transit-oriented development and improved circulation as the parking structure design takes shape. **For more information on the Sound Transit BRT project, follow this link: www.soundtransit.org/system-expansion/sr-522-ne-145th-brt**

Construction on West Sammamish River Bridge and Two Walkways & Waterways Projects to Start in 2020 (continued from page 1)

- Walkways & Waterways 68th Av NE
- W. Sammamish River Bridge Replacement Project
- Walkways & Waterways Juanita Dr NE

Replacement of the West Sammamish River Bridge

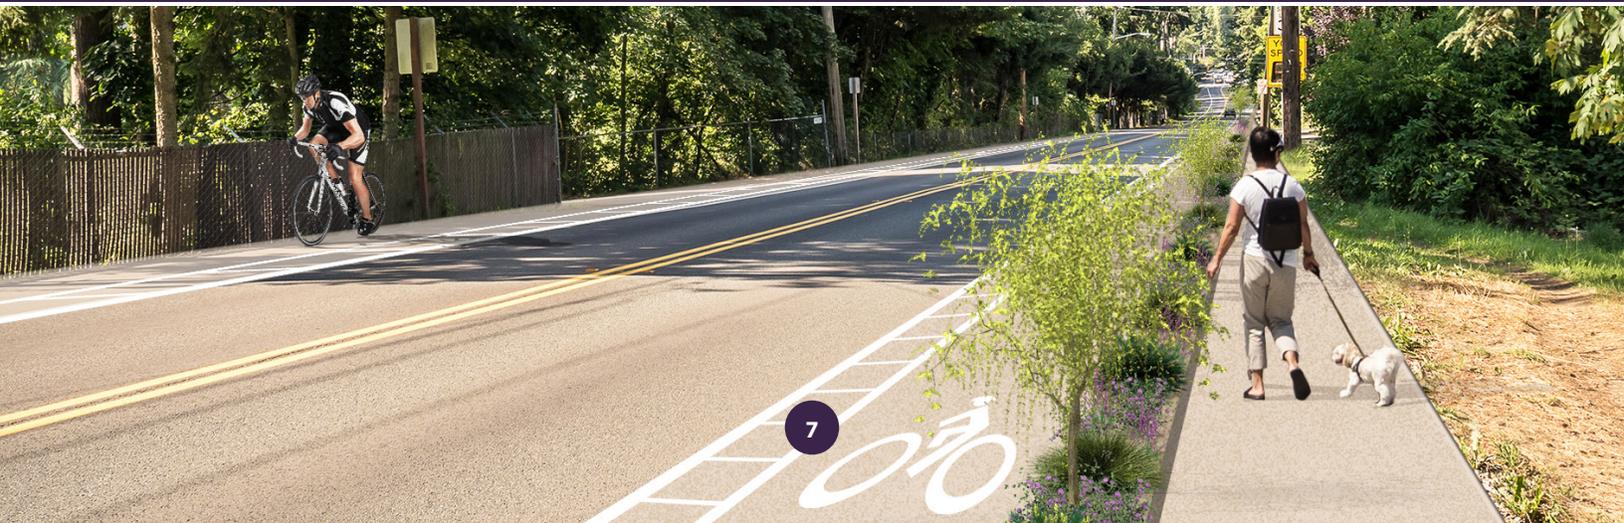

There are actually two different bridges carrying traffic over the Sammamish River. The West Sammamish River Bridge project will replace the southbound bridge which was constructed in the 1930s and is showing signs of deterioration. Due to the age of the bridge, weight restrictions went into effect in 2014 and the City began design for a new bridge in 2015.

The northbound bridge was built in the 1970s and is in good condition. No major upgrades on the northbound bridge are planned at this time although the project includes a few minor improvements. For the majority of construction, there will be access for both northbound and southbound traffic across the bridge, but often it will be constricted to only one of the two bridges and will cause significant delays. Construction is expected to begin in March 2020 and last three years.

68th Avenue NE and Juanita Drive NE Pedestrian and Bicycle Safety Improvements

The 68th Avenue NE Pedestrian and Bicycle Safety Improvements and Juanita Drive NE Pedestrian and Bicycle Safety Improvements are part of the Walkways & Waterways voter-approved bond measure, and the result of the City's "Imagine Kenmore" public outreach initiative. New sidewalks and bike lanes will be built, completing uninterrupted sidewalks and bike lanes on Juanita/68th from city limit to city limit. Construction impacts will include temporary lane closures and traffic detours. Construction could begin as early as summer of this year and last well into 2022.

For more information about these projects, please visit www.kenmoreconstruction.com or call the projects hotline at 425-201-4147.

Avoid Phone and Email Scams

An increasing number of phone and email scams have affected Kenmore community members. Don't fall victim! Familiarize yourself with the tips below, and trust your instincts when something doesn't seem right or seems too good to be true.

Common scams may include prize offers, but if you must pay to get it, it isn't a prize. Likewise, if you are asked to pay someone in an odd manner, such as using gift cards, it's likely a scam.

Don't assume your caller ID is accurate. Scammers can manipulate their information to match their scam. Scammers often disguise themselves as officials such as police or federal agents, but these agencies will never threaten you if you don't pay a debt or fee. Additionally, investigators never need your money to initiate or complete an investigation. Be sure also to protect your social security number. The government does not suspend social security numbers; if in doubt, call the Social Security Administration directly.

What can you do? Hanging up is the most effective defense. You can also do internet research; scams are well documented and you'll likely find people have reported this same scam before.

Never open or click on links in suspicious emails, even if it looks familiar. For instance, a scammer may send an e-mail that appears to be from your bank. Delete the email and login to the bank website directly (not using the email link). Never give out or "confirm" personal details, even if someone has your basic information.

If you think you've been scammed, discuss the incident with family or friends, or call the police to help determine if it is legitimate.

Safely Walk, Bike and Drive in Rainy and Dark Weather

Our region's dark hours and inclement weather can create hazardous conditions for everyone, whether traveling by car, foot, or bike. No matter how you get around, let's all avoid distractions and pay more attention during this time of year.

When driving, be on the lookout for cyclists and pedestrians. Obey signs and signals, and yield to pedestrians at all crosswalks and all intersections. Slow down and increase your distance between you and the next car since slick roads can make it harder to stop. Avoid distractions when driving: do not text or use a device while driving. Also, make sure your car is "rain-ready" by checking the tread on your tires and your windshield wipers.

If on foot, wear bright colors and reflective gear and carry a flashlight at night. Obey signs and signals and cross the street in designated well-lit areas. Washington law dictates that if there are no sidewalks, walk facing traffic and as far away from vehicles as possible. It is much safer to be able to observe traffic. Be present, especially while crossing the street or walking on the road. If listening to music and texting/talking, turn down the volume or pause the conversation when there are potentially dangerous situations.

When bicycling, wear bright colors and reflective gear to help cars see you. Add lights to your bike seat post and handlebar. In fact, state law requires a white front light (not a reflector) that is visible for 500 feet and a red reflector on the rear during the hours of darkness. Walk your bike across busy intersections by using the push button to activate the pedestrian signal, and obey signs and signals. Always ride with traffic and as close as possible to the right side of the road. You can pick up Target Zero clip-on flashing safety lights at Kenmore City Hall lobby.

For more traffic safety tips, see kenmorewa.gov/TargetZero.

Kenmore's New Chief of Police

Brandon Moen was promoted to serve as Kenmore's Chief of Police in November. Moen, who started his law enforcement career in 2006, says he was honored to be selected and is excited to lead our community's talented team of officers.

The City of Kenmore contracts with the King County Sheriff's Office to provide high quality and professional law enforcement services to the community. Kenmore's Chief of Police leads a team of 14 highly trained officers, including one detective, all assigned solely to the City of Kenmore. The most recent Chief of Police, Peter Horvath, served Kenmore for nearly two years and was promoted to the rank of Captain in the King County Sheriff's Office (KCSO).

A 13-year veteran of the KCSO, Moen recently served as a sergeant in the KCSO and had been assigned to the City of Shoreline since 2016. Prior to his assignment in Shoreline, Moen served at the department's Southwest precinct, and with the KCSO Metro Transit Police. Moen was selected as Sergeant of the Year in 2018 for Shoreline and he was awarded KCSO's Sheriff's Medal in 2018 for courage and bravery in the line of duty. Moen holds a bachelor's degree in Urban and Regional Planning from Eastern Washington University, having previously worked in the transportation planning and traffic engineering field.

Kenmore's New City Attorney

Dawn Reitan, of Inslee Best Doezie & Ryder P.S., has been serving as the new City Attorney since October. Reitan has represented cities for more than 26 years and has been with Inslee Best since 2000. Reitan is currently the City Attorney for the cities of Newcastle and Brier (and will continue in these roles) and has served as the Acting City Attorney for the City of Kenmore since Rod Kaseguma's retirement last year.

Reitan has advised cities on a wide range of municipal issues, including land use and zoning, development agreements, subdivision approvals, growth management, impact fees, building codes, annexations, public works bidding and contracting, appearance of fairness doctrine, conflicts of interest, open public meetings, and public records disclosure. Reitan is also experienced in drafting ordinances and resolutions on a wide range of city issues, and she has negotiated both large and small development agreements, franchise agreements, and other agreements. She has also represented municipal clients at numerous administrative hearings and defended them in Superior Court and the Court of Appeals.

In addition to Reitan, Inslee Best Doezie & Ryder P.S. will provide access to experienced attorneys in other legal specialties. The City has contracted with Inslee Best Doezie & Ryder P.S. for municipal legal services since the mid-2000s and is pleased to continue using their services.

Only 32% Aware of Local Water Pollution: So What Can We Do?

"Water pollution" can seem like an overwhelming, global problem that doesn't affect us directly. It certainly is a global issue when it comes to plastics, ocean temperatures, and coral reef loss, but did you know that "water pollution" occurs right here in Kenmore? Swamp Creek and many other streams and rivers all over Western Washington are considered impaired by water pollution and poor water quality. Across the Puget Sound region, stormwater runoff is the leading pollution threat to lakes, rivers, streams, and marine water bodies in urbanized areas.

"A recent survey says only 32 percent of the Kenmore community is aware of pollution..."

A recent survey says only 32 percent of the Kenmore community is aware of pollution—most of it due to our storm drain system, which moves the runoff from roads directly into our local streams, which flow to larger water bodies like Lake Washington. This pollution degrades the water quality and can make it unsafe for humans and harm local wildlife like spawning salmon and herons.

Common pollutants in Kenmore include bacteria, heavy metals, pesticides, litter, oil, vehicle fluid, construction materials, and sediment. There are many ways to help reduce your impact on local water quality. Simple tasks make a huge difference if everyone does their part.

Here are some things you can do:

- Pick up after a pet
- Use a commercial car wash
- Reduce or eliminate use of fertilizers or pesticides
- Properly store and dispose of hazardous materials
- Don't litter (especially cigarette butts)
- Notice and fix vehicle leaks in a timely manner
- Contain and report spills (call City Hall!)
- Use proper containment for household construction and cleaning
- Prevent erosion and sediment transport

KENMORE'S 2020 Calendar of Events *Where the Fun Is*

The City of Kenmore organizes over a dozen community events that present unique experiences for thousands of residents year-round. From the Kenmore Concert Series to the Annual Tree Lighting Festival to Movies @ the Square, Kenmore hosts events for everyone. Here's what's happening in 2020:

July

- 4 | 4th of July Fireworks Show
- 8 | Movies @ The Square
- 9 | Kenmore Concert Series
- 16 | Kenmore Concert Series
- 22 | Movies @ The Square
- 23 | Kenmore Concert Series
- 30 | Kenmore Concert Series

August

- 4 | National Night Out
- 5 | Movies @ The Square
- 6 | Kenmore Concert Series
- 13 | Kenmore Concert Series
- 19 | Movies @ The Square
- 22 | Play Day

October

- 17 | Jack V. Crawford Day

December

- 5 | Tree Lighting Festival

The City of Kenmore offers sponsorship benefits for companies who seek a unique way to connect with their community and have face-to-face exposure to potential customers. Sponsorship levels range from \$1,200 to \$12,000 and offer sponsors a wide variety of opportunities to meet marketing and community engagement goals. To guarantee your sponsor benefit package, please email sponsorship@kenmorewa.gov by April 17, 2020. More information is available at kenmorewa.gov/Sponsorships.

Thank You 2019 Event Sponsors!

Cooley Smiles, Eastside Natural Medicine, Kenmore Camera, Kenmore Grocery Outlet, Kenmore Pediatric Dentistry, Kenmore Veterinary Hospital, LINQ Lofts + Flats, Minahan Dental, Northshore Utility District, Republic Services, Seaplane Kitchen & Bar, Snapdoodle Toys, Spencer 68 Apartments + Lofts, The FlyWay Retail + Living, The Lodge at St Edward

MEETING & OTHER INFORMATION

Kenmore City Council regular meetings are held at 7:00 p.m. on the second, third, and fourth Mondays of the month at Kenmore City Hall, and are open to the public. Live stream and on-demand Council meeting videos can be found at www.kenmorewa.gov/council.

Coffee with Council is held the first Monday at 7:30 a.m. and third Saturday at 8:00 a.m. of each month at Diva Espresso in the Hangar, 6728 NE 181st Street.

Kenmore Planning Commission meetings are held at 7:00 p.m. on the first and third Tuesdays of the month at Kenmore City Hall. Meeting agendas and schedules are available online at www.kenmorewa.gov/planningcommission.

Kenmore Business Alliance meets first Thursday of most months from 8:30 a.m. - 10:00 a.m. at Kenmore City Hall.

The Arts of Kenmore Gallery @ Kenmore City Hall is currently exhibiting "Skate Park Art" through April 8 to honor the thriving Jack Crawford Skate Court and the youthful community it engages. Then, from April 22 through June 12, the gallery will display AOK's 6th Annual Youth Art Show, a juried competition for artists ages 15-18. The gallery is open to the public weekdays 9:00 a.m. to 5:00 p.m. and any other time City Hall is open. More info at www.artsofkenmore.org.

Licensing your pet gives your pet an inexpensive insurance policy for its safety and protection and is legally required. www.kenmorewa.gov/animalservices.

Kenmore Needs YOU!

Want to make a difference in the Kenmore community? The City values our many volunteers who offer their time and their talents to help make Kenmore a better place to live, work, and visit. Volunteers are essential to the City's ability to provide quality services to Kenmore residents and visitors.

Annually, the City organizes over a dozen special events that present unique experiences for thousands of residents year-round. These events wouldn't become reality without the help of our dedicated volunteers. In addition to assisting with putting on City events, Kenmore volunteers also help with park and street cleanups, traffic safety education, emergency preparedness, and more.

Check out all the City of Kenmore volunteer opportunities here:
www.kenmorewa.gov/Volunteer
