

Solarize Kenmore

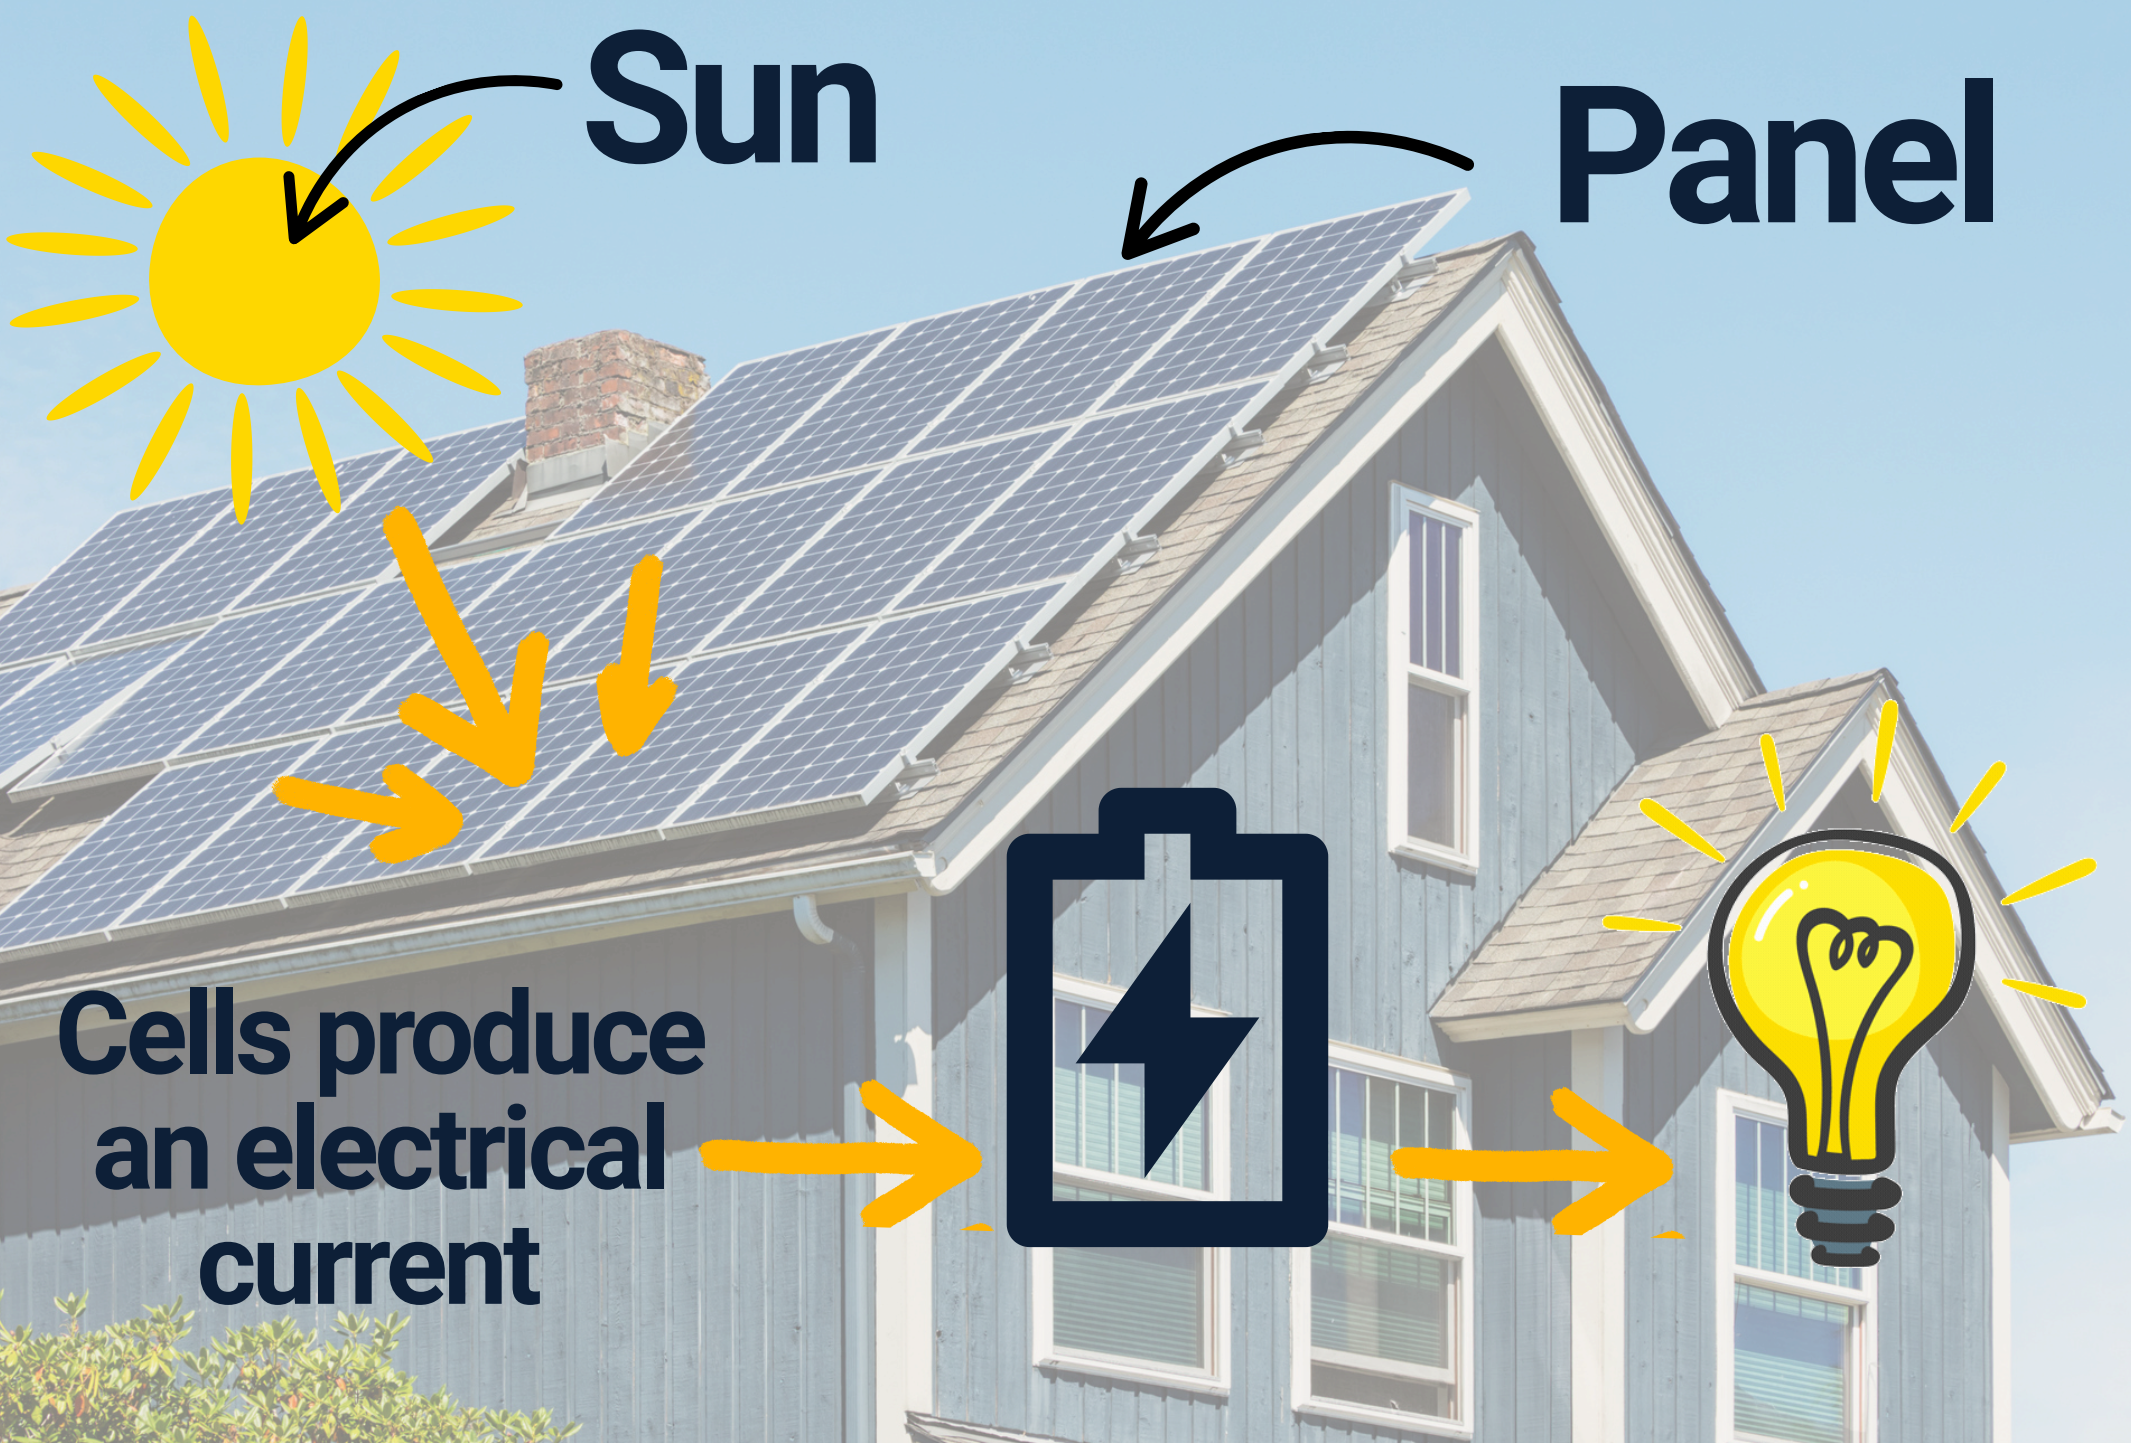

Learn how the City of
Kenmore is fighting
against climate change
through **solar power!**

Swipe and learn more.

1

What is solar energy?

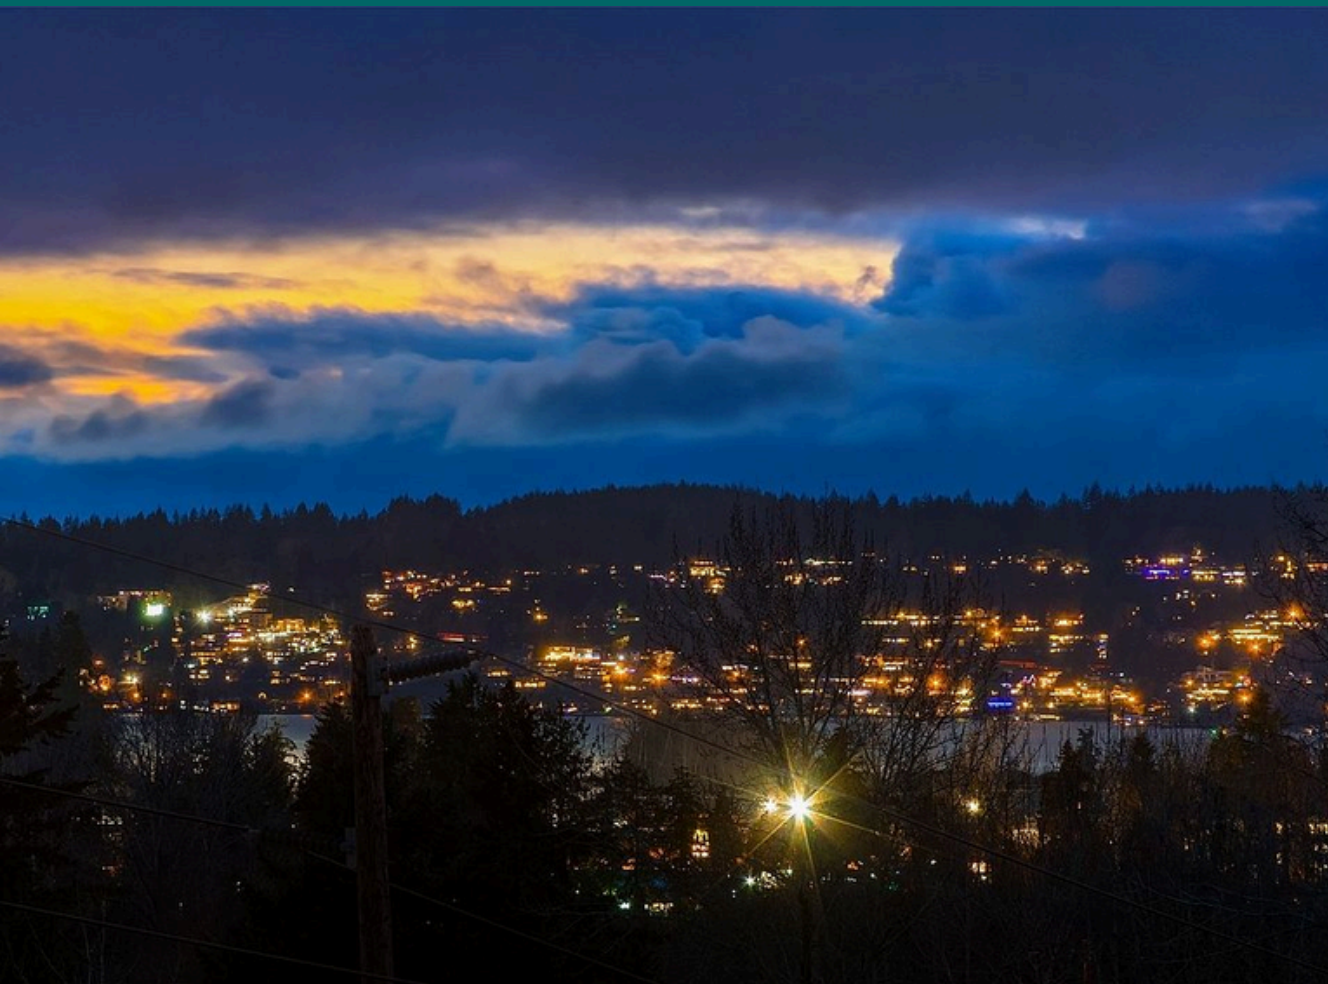

Electrical energy is converted!
Then used to power your home or business.

2

Why use solar energy?

**58% of
Kenmore's
emissions
come from
buildings
and energy.**

**One acre of solar
panels can save
approx. 400,000
lbs. of CO₂!**

3

How much money can I save using solar energy?

In Washington State, the average homeowner with solar panels can expect to save around \$1,000 per year on their electricity bills.

Find out more at
kenmorewa.gov/CAP or
contact CAP@kenmorewa.gov

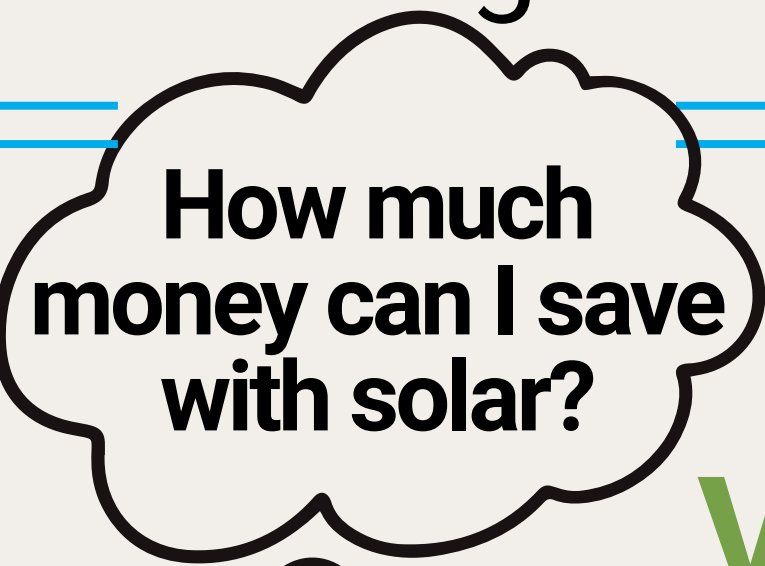

Why **use** solar energy?

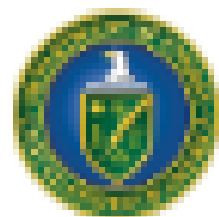

One Acre of solar panels can save approximately 385,000 to 436,000 pounds of CO₂.

That is around **175** metric tons → **198** metric tons of CO₂ per year replacing natural gas.
